Product Awards

Fleuroselect

Fleuroselect is an international organisation for the ornamental plants industry. Its members are breeders, distributors and producers of seeds and cuttings. It tests, promotes and protects new varieties, running trials at 20 locations.

Quality Award

The Fleuroselect Quality Award is given to new varieties which are judged to be marked improvements on existing varieties.

Driven by passion for innovation

PreNova® 2.0

Pansy and Viola Seed Enhancement

syngenta®

FloriPro Services®

Speed and strength delivers multi-season benefits

PreNova® 2.0 lets you plan and produce more efficiently and saves time, money and effort. Worry-free production – that's our promise.

Purpose of the treatment:

- Overcome thermo-dormancy
- Increase usable plants
- Improve germination speed
- Very uniform emergence under a wide range of temperatures (18-25 °C)

Available Species and Series:

- Viola wittrockiana (Delta®, Colossus®) and Viola cornuta (Rocky)

Our Promise:

- Pre-germinated seed delivers very uniform emergence and performs consistently under either cooler or warmer than optimal temperatures
- Germination 1-2 days faster*
- PreNova® 2.0 has a shelf life of up to 12 months
- Ability to pull plugs and transplant earlier due to strong, more extensive root and shoot development (see pictures below) Top: PreNova® 2.0, Bottom: Raw

Your Number One Choice for Violas and Pansies

Make us your 'Number One Choice' for high quality violas and pansies. With seed and young plant production, marketing and technical support under one roof. We're focused on delivering the benefits that help you. Our wide range means we have a variety for every situation.

We make growing pansies and violas easy for you

Our Xtray delivers the most efficient means of transplanting with minimal losses. All Viola cornuta varieties are available in 480 cell trays, giving high uniformity. We ensure all new introductions to series fit for uniformity and flowering.

- The right series = maximum profits for you
- Bold and unique colours stimulate impulse sales
- The Do it Delta® series offers unbeatable 'shelf life', so you can sell quality plants for longer and reduce wastage – which means more profit for you.
- Our young plant prices includes delivery –what you see is what you pay.

Whether it's pansies or violas, large-flowered or small-flowered, mix or single colours – make us your number one choice.

Do It Delta® pansies and violas equal quality and reliability: only the best genetics are worth a place in the Do it Delta® brand. Each of the various varieties withing the Delta brand (Colossus®, Delta®, Deltini, Endurio® and Rocky) has its own specific characteristics, which can be found below.

www.doitdelta.eu

Delta® has been our top variety for more than 20 years, growing to become the market leader, often imitated - never equalled. The unrivalled Delta® series is ideal for both autumn and spring flowering. But take a look too at others in the Do It Delta range - the uniformly giant-flowered Colossus®, the compactly, strong-branching Deltini, the long-flowering Endurios®, plus the allrounder, small-flowered Rocky series of violas. All are ideal for maximising your profits by bringing together reliability and ease of production.

Colossus®

The Colossus® is the most uniform giant flowered series on the market. It is also extremely heat-tolerant, making it ideal for early autumn cultivation under hot, stressful conditions. The series consists of a range of very strong colours. The Colossus® plants branch well and do not stretch.

Pot weeks: 27-33 **Selling weeks:** 33-39 **Size:** 9-10 cm

Delta®

Delta® pansy is the most complete and reliable series on the market - perfect for autumn and spring sales. Even grown under low light, Delta® is extremely uniform. Combined with a nonstretching habit and good branching, Delta® sets the standard for pansies.

Pot weeks: 32-37 | 40-45 **Selling weeks:** 37-44 | 8-13 **Size:** 6-7.5 cm

Rocky

Quite simply the market-leading small-flowered viola series, with 32 appealing colours. Rocky is ideal for autumn and spring cultivation, being compact throughout with good basal branching.

Pot weeks: 27-37 | 40-45 **Selling weeks:** 36-44 | 9-13 **Size:** 3-4 cm

Deltini

Viola Deltini is remarkable for its compact, uniform, strong-branching habit, making it ideal for small pots and packs. Ultra-early and super uniform Deltini is suitable for both autumn and spring flowering. The wonderful colours of the free-flowering Deltini are a delight in beds, borders or patio pots.

Pot weeks: 27-37 | 40-48 **Selling weeks:** 32-44 | 5-14 **Size:** 3-4 cm

Endurio®

Endurio® is a real break-through in violas! Thanks to its spreading habit, free and long flowering, Endurio® deserves a place in every garden. Its sparkling hues bring a welcome splash of colour at the darkest time of year. Frost and snow pose no problem to Endurio®, with flowers produced in mild winter spells, followed by a real explosion of blooms in spring!

Pot weeks: 32-37 | 40-45 **Selling weeks:** 36-44 | 7-14 **Size:** 3-4 cm

MultiColours

Viola

Today's consumers are looking for easy solutions to bring that extra element to their outdoor living space: so-called 'instant gardening'. Because of this, mixed combinations of plants and flowers in pots and hanging baskets are proving to be increasingly popular with retail customers.

Syngenta FloriPro Services® realises that in order to achieve the best results, any product for this market must not just appeal to the end customer, but needs to perform successfully throughout the supply chain from grower to consumer. Therefore we have extensively tested all our combinations, to ensure they fit with growers' production systems, perform well and provide consumers with a well-balanced and even combination that flowers throughout the season.

The MultiColours range provides growers with easy production, retailers with a highly appealing product at the point of sale and consumers with a prolific flowering plant for their garden. MultiColours products appeal to both impulse buyers and regular customers alike thanks to their eye-catching display in store.

www.myfavouritemulticolours.com.

Advantages of MultiColours

For Growers

- Tried and trusted combinations
- Only use well-known, proven genetics
- Uniform combinations of habit and earliness
- Three single plugs or cuttings for the best results
- Single plugs mean greater efficiency by producing a higher percentage of saleable plants and require less grading
- Point Of Sale material available to support sales

For Retailers

- Great-looking plants which sell themselves
- Provide superb sales appeal with all colours clearly visible at the point of sale
- Ideal for impulse purchases
- Excellent shelf life from healthy plants which extends the selling season

For Consumer

- Enjoy abundant flowering all season long
- Easy to care for
- Great for patio containers, hanging baskets or planting in borders

Deltini combinations

Its unique day-length neutral flower response makes Deltini **the** next generation of small-flowered Viola cornuta. It gives unmatched performance in programmes, making the cultivation of combinations much easier. The addition of best-in-market uniformity and plant habit make Deltini a truly unique, game-changing series for combination production.

By selecting Deltini for use in their combinations, growers can save costs with: less flower picking, lower use of PGRs and plant protection products, lower disease risk and better space utilisation within the greenhouse. Consumers will enjoy the richly flowering compact combinations all season long. Deltini is ideal for spring production, but is also suitable for late autumn in 12/13cm pots or bowls.

Rocky combinations

Our standard small-flowered viola series Rocky (Viola cornuta) is very well suited for the MultiColours concept. With its attractive colours, including some stunning specialities, it will steal the show for consumers with unique, rich flowering combinations. Suitable for production and sales in both autumn and spring, this all-rounder will always perform.

Endurio combinations

This premium small-flowered viola series has a very strong consumer profile. Its impressive semi-trailing habit always produces an enormous number of flowers. It also has exceptional winter performance due to frost- and snow-resistance. Endurio® is perfectly suited for growers who are looking for premium combinations for high-end retailers. Used in combination with our trailing Pansy series Wonderfall, creates unique products which are beloved by consumers. These are easy to cultivate combinations, suitable for both autumn and spring in hanging baskets, containers and > 13cm pots.

Primula

Primula Mitra late is very suitable for a production with very high surface coverage. With its compact stature and the uniform flowering of the colors, the series is ideally suited for mass market production. Ideal for selling in March. As part of our Primula range, you will not only find other excellent series for the mass market, but also unique specialties, which convince the trade and delight the end-user.

Primula acaulis

Mitra Late White

Primula

easy product finder

Primula is an important part of our Biennial assortment. As you can see below, we offer a number of series for specific market segments: Mass, Luxury and additional Specialties.

With our long history in producing high quality young plants you can rest assured that Syngenta FloriPro Services® will be your preferred supplier for Primroses.

Other Biennials

Ranunculus Magic has fantastic double flowers in appealing colours, with a very compact habit. Due to its naturally compact growth, no PGR is required.

In addition to Magic, we also offer Marché and other proven biennial varieties, such as the Bellis BellaDaisy, Cheiranthus Sugar Rush and more special series.

Ranunculus asiaticus F1

Magic Chocolate

Bellis perennis

BellaDaisy

Spring Perennials

Aubrieta Axcent flowers 'Springs' to life with flower before many other Aubretia have woken from the winter. The large flowers bring joy to the end consumer bringing colour into the late winter months.

In our winter and spring flowering Perennial range, you will discover further attractive and exclusive series for both indoor and outdoor production.

We also offer a wide range of very early and later flowering varieties of Saxifraga, presenting you with new opportunities at a dull time of the year.
